## VACCINE EXPLOSION

In the past quarter century, the numbers of vaccines the CDC and AAP insist that children must get has increased from 23 doses of 7 vaccines to 48 doses of 14 vaccines by age six.

\*There are no large, credible studies proving it is safe for all children. \*

Number of mandated vaccines before attend ing school:1983 - 10Autism - 1 in 10,0002008 - 36Autism - 1 in 150

A child receiving all the recommended shots which includes 24 vaccines during the 1<sup>st</sup> year of life, isnow 14x more likely to become learning disabled & 8x more likely to becomeautistic.&nbs p;Dr. Walter Schilling Ph.D(researcher)

<u>Dr. Robert Blaylock, Neurosurgeon</u>, says that the very young are at an exceptionally high risk for vaccine induced damage due to their rapidly growing brains. A child's blood-brain barrier has a higher permeability to allow more nutrients across as it grows and develops. 'A child born today will receive 24 vaccines in their first year of life including as many as 9 in one office visit. That is insane and in my opinion, criminal.' Dr. Blaylock

Because vaccines are toxic to the body: the theory behind their effectiveness is that they will stimulate a strong immune response that will be stores in the body: This is true, however, the catastrophic effects of a powerful boost to a developing immune system are not taken into consideration: The effect of this:

Over-stimulation of the immune-mediated microglial response while intensifying the anti-body mediated Th2 response, causing it to last way longer than it should. *This results in excessive brain inflammation* & *tissue destruction as the immune system loses its normal control circuits* & *literally attacks everything in sight including itself!!* < BR> \*Both factors have been noted in autism, other neurological & auto-immune disorders.\*

We have seen vaccines literally destroy children's lives. Our culture has experienced a 50 fold increase in auto-immune diseases like juvenile rheumatoid arthritis, diabetes type I, Chrohn's, celiac, irritable bowel disorders, asthma, allergies, etc. Our children have more vaccines than ever, yet are sicker than they have ever been in the history of mankind. *</ SPAN>As a result, the youth of today are the first generation in the history of mankind expected to die before their parents.* 

We know that God created our bodies with an amazing ability to heal themselves. There is nothing on this planet that God working through our nervous system cannot heal! Every irritant, whether it is dirt, dust, dander, viruses, or bacteria are a necessary & overcomeable challenge to our innate immune system. *Like exercise to the muscles, the immune system grows stronger with every natural challenge.* God needs no help! A healthy nervous system, an alkaline, anti-inflammatory diet, a fit, strong body, & a peace/purpose fill ed life are what He desires for you and they are the keys to great health.
