

Juice Plus+ Financial Projections

Professional Enhancement Program

Juice Plus+ can enhance the effectiveness of your practice by:

- 1) Affecting the health of your patients at the cellular level
- 2) Providing value-added to your patients through the Wellness Education Services we provide at no additional cost to the practice
- 3) Reaching new patients through the Prevention Plus lectures we offer to the community
- 4) Generating a secondary source of income to cover overhead and expenses associated with your practice

You'll simply endorse the Juice Plus+ product line by letting your patients know that Juice Plus+ is what you and your family take for your health and provide your patients with a "Prescription for Better Health" that they can leave with the front desk authorizing your Wellness Coordinator to contact them. (Sample letters attached.)

One of your staff will contact your Wellness Coordinator with whom they need to follow-up. Your Wellness Coordinator will answer all of your patients' questions, place the order, and do customer care follow-up calls. The customer will also receive follow up postcards. With this follow up system most customers commit to a lifetime of taking Juice Plus+ after their ninth month.

Building a base of Preferred Customers often begins slowly, but as the months pass the residual income factor surfaces as patients continue taking the product and new patients become Preferred Customers (PCs) on a daily basis.

Total PCs Per Month	Total PCs Per Year	Annualized Income	
		12Months	24Months
20	240	\$30,960	\$92,880
30	360	\$46,440	\$139,320

Many Professionals have a very large patient base and see hundreds of patients every month.

Share this tried and proven system with other healthcare professionals and double or triple your income!

*This does not include multiple Juice Plus, Vineyard & Complete orders.
